NEW YORK, Jan. 10.-Gilbert K. Chesterton, latestwof a distinguished line of English authors to visit us, arrived today on the Kaiserin Auguste Victoria and immediately threw off a paradox or two. Paradoxes are the well-known Chesterton specialty.

'Ireland," said he, "is apparently the only nation on the globe not oppressed."

Another good paradox was pulled by Mr. Chesterton when he announced that his first lecture on "the ignorance of the educated" would be given in Boston. He did not wink when

of Helping Jobless; Several Schemes Proposed.

PARIS, Jan. 10.—The French Cabinet is considering what may be done to supply work for more than a half-million of the nation's unemployed mechanics and laborers, and

ployed mechanics and laborers, and thus to remedy a situation intensifying trade embarrassments and threatening further large additions of unemployed. The number of persons out of work is estimated at from 500,000 to 1,000,000.

Working up of leftover army material into civilian clothing is one solution praposed. It has also been suggested that many of the idle may be utilized in completing the demolition of the old wall of Paris and in building some 2000 more homes for large families on the space made available where the demolition has been effected, while intensified reconstruction work in Northern France might keep many more occupied.

The Cabinet is considering the feasibility of opening public works and of putting waterways and railroads in condition.

Reports to Congress.

(BY A F. DAY WIRE.)

WASHINGTON, Jan. 10.—An investigation into activities of lumber manufacturers through their national and regions, associations is being made by the Department of Justice, with the assistance of the Federal Trade Commission.

This is disclosed in a report sent today to Congress by the Commission connection with the inquiry being conducted by the Senate Committee on Housing and Reconstruction. The report, the commission says, is designed to show the activities of the manufacturers and their attitude toward national legislative and departmental—that have for their direct or indirect or indirect of the result can be added by the Senate Commission of confictions of competitive woods, control of prices and production, restriction of reforestation and other matters.

IRT A. P. NIGHT WIRE. SAN QUENTIN, Jan. 10.—Simon Ruiz is to be hanged Friday, the warden's office said today, for the murder of John Miller, a railroad section foreman at Sperry, Cal., last

October.

Ruiz, who was 17 years old at the time, and another boy, robbed Miller's cabin and, according to the evidence, Ruiz shot Miller to conceal the crime.

SAN FRANCISCO, Jan. 10.—A group of men and women, headed by Mrs. Marie Dorn Hirst, daughter of former Judge Dorn of Monterey county, have interested themselves in Simon Ruis and are preparing to launch a Statewide protest against his proposed execution, it was learned today. According to Mrs. Hirst, Ruis was under the domination of an older man, who prompted the crime.

PRICES FOR LUMBER. IN BAY CITY DOWN.

SACRAMENTO. Jan. 16.—Reduced prices in lumber, in some cases amounting to more than 25 per cent, became effective in this city today, according to announcement by various companies.

The principal declines are in the coarser grades of lumber, amounting to nearly 30 per cent in rough pine. In this grade prices ranging at from \$60 to \$64 a thousand feet will now run from 345 to \$47.56. In Oregon pine, lumber priced before at \$105 to \$120 will retail at from \$85 to \$100. A desire to stimulate building is given as the principal reason for the reduction. [BY A. P. DAY WINE]

Australia was reported to be awaiting lower prices before buying, condition unsatisfactory."

The Japanese financial condition is most "unsatisfactory." Commercial Attache James F. Abbott cabled from Tokio. He predicted a severadrop in the Japanese exchange rate. Mr. Abbott reported banks have iightened the money market by raising rates. Japan, he said, finished the year with a large balance of 'trade against her and there are large stocks of unsold goods in warehouses. The general stagnation of business, he said, has brought about a situation which will result in the cutting of wages.

Fallure of many business houses in China is foreseen by Commercial Attache Julean Arnold at Peking. who cabled that the ancient Chinese custom of paying all debts on the new year, February 8, will force many places to close.

OVERSTOCKED MARKET.

Low evchage rates have cesulted in an overstocked market in India. according to Commissioner Batchelder. at Calcutta. He advised American business houses to exercise care in granting credits.

Argentine exports and imports have dropped, while the money market has become very tight, Commercial Attache Edward G. Feely, at Buenos Aires, reported. December failures doubled those of the same month in 1919, and many others were threatened, he said.

In Chile, both exports and imports were reported to be decreasing and the exchange rate in the parties of the exchange rate in the parties of the same proved. Great care should be exercised in granting credits, the department was advised.

Commercial Attache Carlton Jackson reported that many business failures were expected in Mexico and that the money market is unfavorable. COMPANY WILL SELL WATERWORKS TO CITY

SAN FRANCISCO, Jan. 10—An greement to sell their property to the city for \$38,000,000 was reached by the stockholders of the Spring Valley Water Company today. The figure is \$1,000,000 in excess of the valuation as of March 1, 1920, which was placed on the property by the State Railroad Commission. The stockholders figured that cap-ital expenditures since then would equal \$1,000,000, city for \$38,000,000 was reached

There's a Wonderful Lot of Interest in the Sale of Infant's and Children's Wear at Less Than Half!

-All of this merchandise is of the very highest character and has been kept in splendid to Because of other plans being made, this other Store decided to discontinue its Children's lines-

that we were able to buy them at 'way, 'way less than half price. -The stock was not large, but it embraced nearly everything that you could wish for, for Babes that are just coming into the world, up to Misses that are just stepping into womanhood.

—Some lines are quite badly broken, and in other instances there are just one or two things of a kind—but the lowness of the prices we have been able to make more than makes up for any lack of assortment.

—All of the prices are less than half; some are but a quarter of the original prices; others are even less. Nearly every garment bears the original, as well as the sale price, so it will be easy for you to see what wonderful savings you are making.

—In the sale are—Infants' Hand-Made Dresses, Slips, Underwear, Woolen and Cotton Stockings, Shoes, Infants' and Children's Knit Underwear, Flannelette Nighties, Children's Muslin Underwear, Celluloid Novelties and Rattles, Infants' and Children's Bathrobes, Rompers, Creepers, Gingham Dresses in sizes of 2 to 8 years, Party Frocks of Silk and Net, Infants' Silk and Lingerie Bonnets, Children's Lingerie Hats and a great, great number of other things, such as you would expect to find in a well-assorted stock of Children's Wear.

-None of this Sale Merchandise can be sent C. O. D., there can be no phone orders, no exchanges and no refunds.

The Garment Clearance Has Wonderful New Values

and Dresses is depleted, King Cotton reduces higher-priced garments to re-fill it and will do so as long as any winter garment remains in stock!

There's plenty of time to wear them and the prices are so drastically reduced and the range of choice so wide practically every woman's suit, coat or dress need can be exactly met and at a great BIG saving!

CHICAGO, Jan. 10.—Charged by railroad employees with defrauding the public of millions of dollars and conspiring to create unemployment by cost-plus contracts with equip-

by cost-plus contracts with equipment companies, rail representatives today presented details to support their piea for abolishment of national agreements before the United States Railroad Labor Board. The railroad presentation occupied the entire afternoon session following the employees' opening statement. The employees' opening statement. The employees' charges, which declared that 30 per cent of the railroad mileage was controlled by the Morgan steel interests, asserted that maintenance costs had been inflated at the expense of the public. This was done, said B. M. Jewell, head of the railway employees' department of the American Federation of Labor, by letting contracts to equipment companies controlled by the same banks that control the railroads.

rne same banks that control the railroads.

Under the guarantee of the Esch-Cummins Act, the alleged inflated costs constitute a fraud against the government and operated to throw out of employment over 50,000 skilled railway employees.

TO DIVERT ATTENTION.

TO DIVERT ATTENTION.

Declaring that the charges had no relevancy to the hearing on rules and working conditions under consideration, E. T. Whiter, chairman of the mangers' committee of the railroads, asserted they were made to divert public attention from matters in controversy.

Examples designed to show inequalities in present rules were recited by Mr. Whiter. He declared the present national agreement should not, in the interest of honest, efficient and economical management, be continued longer, and asid universal application of their previsions was impracticable because the only parties fully qualified to consider such regulations are the individual managements and the employees.

individual managements and the employees.

Mr. Whiter urged a return to the plece work plan. Specified hours and restricted starting times were deplored in numerous examples brought out to show, he said, uneconomical practices. Overtime and extre shifts were cited on several roads to show that the work done could be performed by regular shifts in regular hours, if the roads were not restricted by the present rules.

DEATH CALLS LAWYER OF HARBOR DISTRICT

FUNERAL TODAY FOR HENRY A. STEIGLITZ, CIVIC LEADER AND FORMER JUSTICE.

Funeral services will be conducted for ex-Justice Henry A. Steiglitz, 56 years of age, prominent Southern California jurist who died Sunday at his residence, 236 South Center street, in the harbor district. Rev.

his residence. 936 South Center street, in the harbor district. Rev. T. J. Oliver Curran, rector of St. Peter's Episcopal Church. will officiate. At the burial services at the Rosedale Crematory, which will be conducted by the Knights of Pythias. members of the uniform rank of that order will be the pallbearers and Rev. W. S. Dysinger will made a short address.

For more than a year Mr. Steigtitz had been in failing health and during the last few weeks he had heen given several blood transfusions in an effort to revive his failing strength.

Up to the time of his illness he had been one of the most active men in community and civic affairs in the harbor section, where he had lived for twenty-eight years at the time of his death. In fraternal organizations also he was an important figure, being a charter member of the Elks' Lodge at the harbor and having served at one time as Exalted Ruler. He was also a member of the Knights of Pythias. Odd Fellows, Moose, Eagles and Red Men lodges, in all of which he had held high positions. He came to this city from Columbia, S. C., in 1832.

Mr. Steiglitz was township justice at Wilmington before the consolidation and was City Attorney for the harbor district at the time it was annexed to Los Angeles.

Mr. Steiglitz was married three times. His first wife, mother of his two children. Mrs. Edmund Frost of San Jose and Mrs. Jay Conley of Los Angeles, died here about ten years ago. After his marriage to his second wife, who died about five years ago. After his marriage to his second wife, who died about five years ago. The man who built a City's Soul

Goodhue did it-the same man who's just now moulded the mood of the great plains into his design for the new Nebraska State Capitol.

Goodhue built in stone and steel, in walls and towers and courts, the Soul of San Diego, Southern California's wonderful harbor city.

To Goodhue's work at San Diego, first known as the Panama - California International Exposition, time has added a thousand beauties.

The famous arched bridge leaping Cabrillo Canbefore the great open-air pipe organ, where afternoon recitals are given every day, flower courts and palm canyons overlooking the sea, proclaim the romance, the enterprise and the beauty of San Diego today.

There's nothing like it anywhere, and it is only one of the hundred fascinating discoveries you will make day after day in this active, modern city of 90,000 residents.

You'll find no more delightful excursion than an afternoon ride to San Diego by rail or over good roads through orange groves and by the sea. There's frequent steamer service also. Hotel accommodations are ample, modern and reasonable.

President Harding's official plurality was 7,001,763, which of itself was more votes than any Democratic candidate had ever received up to the time of Wilson. BARED CHARMS. The audience took exception to the backs and busts displayed by some of the fashionable women at a grand opera-performance and started a riot which might have wrecked the theater. The dames had to hastily cover their nakedness with their wraps to save themselves from violent treatment. MAN OF PEACE.

Prince Rupprecht of Bavaria now tells an American interviewer that he was always vigorously opposed to the war; that he did not want to fight the English or Americans and that the sinking of the Lusitania was an inexcusable crime He was also always opposed to submarine war-fare and the bombing of cities from above. Measured by all this the Prince was the sort of a bird one might find mixed up in a nice quiet pinochle game. What was he doing in the German trenches with a fire-cracker in his hand?

CUBANS QUITE HUMAN. C When sugar was selling at 28 cents a pound in the United States fortunes were perity was sky high. At that time the Cu-man Minister in this country told us that prosperity was not turning Cuban heads, that there was no wild wave of extravagance as existed in this country and that savings accounts were swelling the bank

We were very much impressed at the time with Cubans' sagacity and, on the authority of their Minister, held them up as examples of wisdom, foresight and selfcontrol. But now it appears that Cubans were just human, after all. When the price of sugar slymped the cane mills closed and Cubs went broke, and now they are indulging in an economic and financial panic for all the world like ordinary moregant, wasteful United States will have to step in to the rescue, after all.

Assemblyman Arthur Weber of Sants Monica is pressing a measure which would abolish capital punishment in California. This is in accordance with the tendency of the time, but not with the present States forbidding the death penalty is in-creasing and the sentimentalists have been in the saddle. Those of sterner mold say that their objection to life punishment for major crimes is that it doesn't even mean life punishment. Some Governor pardons or some board paroles and the prisoner is at liberty in a few years. Assemblyman Weber's bill would correct this weakness Under its terms the judge and jury trying a case could send the offender to prison beyond hope of pardon or recall." The recutive pardon would be abolished. It tional pleas or on insanity defense would be inclined to more quickly render a verdict of guilty in a first degree murder case if the punishment were life imprisonment gather than death. If life imprisonment means exactly what it says and there is no possible chance for pardon or mitiga-tion it should be an even greater deterrent sent. To spend one's life in silence and seems a vaster punishment than a mere

THE GREAT PLEA FOR 1921.

I "Dear God, send us peace."
Out of all the confusion and chaos of
world affairs this plea rises from the heart of humanity. We are so weary of wars, of struggles, of hates, of bitterness. If there is any glory in war we have had our fill of On horror's head horror accumulates. Yet "war, war," is still the cry, "war even to the knife," in so many quarters of this hapless globe. That great war which was to end war seems to have fomented halt a dozen others. The policy of "self-determination" of which so much was hoped seems to have created a dozen new national antagonisms, to have revived scores of slumbering hates. Self-determination is apparently interpreted as self-extermination. Large and small countries alike are bris-tling with "rights" and for them stand ready to commit so many wrongs. Yet each and all of them crave peace, their peoples are crying out for peace, but always it must be a peace at some one else's expense.

In the guise of "patriotism" so many crimes are possible. And "self-determina-tion" has created a deluge of new patriotisms. Without some supergovernment, some mighty co-operative council like the League of Nations, to insist upon bloodless adjustment of the ever-increasing differences, the outlook for the future is fraught with even greater woes than those of the past. There must be a League of Nations, a League firm in nobility of purpose, founded upon the best principles of humanity, so strong in just council that its decisions can carry the finality of righteousness. A League in which all nations must make mighty con-cessions, in which "patriotism" gives as well as receives, concedes as well as de

What if there are flerce controversies in debate, what if national selfishness and amtition may seek to sway the council, what if international distrust is so rampant that the cynics oppose a League of Nations on these grounds? No one supposes that it will function with the oiled efficiency of exact machinery. If it could do so the need of it would not be so urgently apparent. It is just the fact that all this greed and chicanery exist, which makes the League, or some form of world control, such a dire some form of world control, such a dire necessity. And if these greeds and duplici-ties are exposed and aired at the Council meetings—which they cannot fail to be with the statesmen of all ambitious and selfish nations watchfully alert to circum-vent the machinations of their rivals—then will come the tug of peace.

And in any case, even though the League should fail humanity's highest hopes for it, the experiment is worth trying. The old system has failed so cruelly. If the League of Nations prevents but one war it will have justified its existence. No matter if they fight in council, no matter if their arguments are savage—that is the best place for wars to be fought, and words are the best weapons. There may be, will be, in-trigues to sway the Council for selfish ends. but we shall at least have the felicity of knowing that the statesmen of the world are cognizant of conditions, that publics everywhere will be informed, that war, if it comes, will indeed be an unavoidable war. We have only to look backward over the events which led up to the great war and appreciate that in the light of later revelaa League of Nations been in existence. If had stood by Great Britain in its effort to discountenance the war, had Germany appreciated how many strong nations were against her, the assassination of an Austrian Prince in Serbia could never have been the occasion for the death of millions of the world's best men.

Yet there are still blind statesmen ready to oppose this great experiment—even while wars and threats of war darken the borizon of the New Year and millions still suffer in dire privation and misery as the results of the last. Any experiment with the motive of preventing war is worth while, and forty-eight nations have already joined the League of Nations to this end. We have no reason to doubt their sincerity; on the contrary, under the provisions of the League, their will to peace must be sincere. The only great country whose sincerity can be internationally doubted at this time is the United States—the country professing but, we insist, actually holding those high ideals and capable of swaying the ufmost influence in that League for

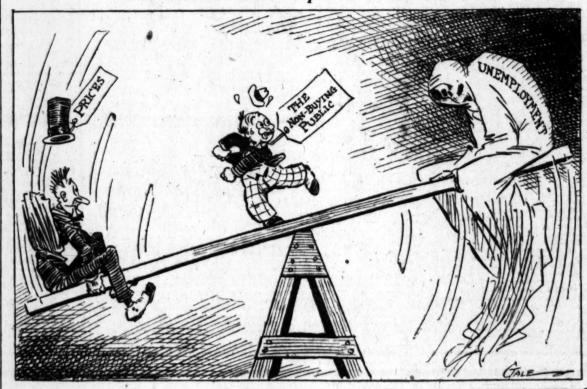

Of course, there isn't any doubt that the League-a changed League, with some safeguarding reservations. But to the idea of the League, to the great basic idea of our people, we subscribe with all our hearts, no matter how we may differ on certain clauses. This country cannot ignore the great plea of humanity, never mind how much its handful of irreconcilables may delay and confuse the issue. Our responsi-bility and power are too tremendous for

that—and every citizen knows it.

And that this year of our Lord, 1921, may bring about that consummation so devoutly to be wished is the great plea of humanity the world over. That day on which the with the other great powers in a solemn covenant to work for peace and good will towards man will be marked in history as that at last the world is united on a great principle, in which organized co-operation will take the place of organized antagonism, and that the horrors and cruelty of war must inevitably be lessened, if not ban-

A N AUTHORITY.

Gov. Lowden of Illinois will visit California shortly and while he is here he some first-hand information on how to consolidate the State boards and commission and save the people money. Gov. Lowden took 115 State boards and consolidated them into nine smooth-working departments. He also succeeded in cutting the State tax rate in the face of the big war and rising prices. This sounds like fairy stuff to the average Californian, but Gov. Lowden has the record to prove it. There are no politicians here with a passion for public thrift, but if plea for economy he can easily get some practical ideas on consolidation and saving through the experiences of Illinois' famous executive. When California politicians talk economy do they ever mean what they We Have Our Ups and Downs.

Preserving American markets and erican industry for America until a condition of stability is restored in Europe of unemployment and business depression the industry of the world, ourside our own country and a few South American States, is all topsy-turvy. When world markets are so unsettled it is the duty of each country to look first to its own Altruists regard this as a selfish point of view; but altruism is only a fair weather philosophy. There comes a time when a government must protect its people. just as a mother protects her young. A certain amount of selfishness is necessary to prevent the world from miring in maud-

lin sentimentalism.

In order to meet the present extraordinary conditions Republican leaders in Washington are considering a proposal to re-enact the Payne Aldrich tariff bill as a temporary dike against the flood of cheap European and oriental goods until a permanent tariff wall can be constructed. There has never been a time when it was more difficult to determine just what tariff schedules are adequate. A tariff rate that is too high will increase the cost of living, while one that is too low will permit a demoralization of American markets, causing factories to close and millions of men to be thrown out of employment.

framing a tariff law with balances adjusted to meet new world conditions. There is grave danger that a storm would be upon us before the preventive measures were completed. We must not be blind to the fact that both Japan and the countries of the west of Europe are manufacturing vast quantities of goods for the American markets. The United States is looked upon as the best selling market in the world. amount of liquid capital we possess and our favorable exchange rates cause the manufacturers of other countries to prefer our markets to their own.

Here are a few export facts that are worthy careful consideration. Germany exported five times as much during the first six months of 1920 as during the same period

During the first nine months of 1920 Belgium's exports were six times as great as for the first nine months of the previous

French exports during the first ten month of last year were two and a half times as great as for the similar period of 1919. British exports have doubled and those of Italy have nearly doubled. Denmark, Holland and Sweden have maintained a similar ratio. India, Australia and Japan

have done equally well.

If it were not for the fact that, while these countries are exporting such vast quantities of goods, they are stinting their own peoples one would be justified in the optimistic conclusion that the world is returning to a normal state in double-qu time. They are doing, however, much better than it appeared possible for them to do two years ago. It is a hopeful sign and all good Americans sincerely rejoice in it. But, at the same time, it is our duty to ourselves, to see that we are not impover-

ished for the benefit of peoples overseas.

Quietly and without ostentation American business has made great sacrifices to aid these countries in reconstruction. We have received about \$6,000,000,000 of foreign goods in the last twelve months and paid cash for them. Practically no credits have been extended by the countries mentioned to purchasers in the United States. Dur-ing the same period we have sold them about a similar amount and we have extended them credits to such an extent that they were our debtors at the beginning the present year to the amount of about \$3,500,000,000. America is still paying cash for her purchases and selling on long-term

But the time has come when we must consider how far we can continue that policy. We cannot afford to purchase foreignmade goods while workmen in our own country, competent to produce similar articles, are out of employment. We must consider our own people first; and the one way law which will equalize labor costs between this country and foreign lands.

The House of Representatives has already passed a bill prohibiting immigration for a period of one year. The object of that law is to prevent a dumping of foreign labor n out of employment. If a companion bill, in the form of a tariff, is enacted to then the labor and the industry of the country will be secured against possible panics.

ules of the Payne-Aldrich tariff should be modified to meet after-the-war conditions. But, in the main, ft would provide a temporary barrier against dumping until a new tariff act could be drawn. It is proposed to re-enact the Payne-Aidrich tariff as soon as possible after the new President and Congress are in control of the government. To pass it before March would be to court a holds, as all hopeless free-traders do, that it would be unfair to the peoples of other countries. When it is a question, however, of whether our government shall be "fair" to other peoples to the extent of being unfair to our own there is virtue in the slo-

gan, "America first." We all wish there were enough employment in the world at good wages for every man and woman able and willing to work; but, when there is not enough employment to go around it is the duty of our government to see that its own people are em-

EXPERT ADVICE. When in doubt, consult an experte when seeking to get more in doubt, consult several experts.

Dr. Dublin of New York finds that old people are dying at an alarmingly swift rate in this country as compared with other lands and gives as his reason the high death rate among the foreign-born. den W. Baker, his associate, shows in another article that the very foreigners who are supposed to be raising our death rate are living longer in Europe than we do. Surgeon-General Cumming, considering the life-chance of babies, delivers himself in this oracular fashion: If milk is boiled for ies, certain saving germs are destroyed

end the child is apt to perish for lack of their aid; if milk is not boiled, other hostile germs, which will not be destroyed. will prey upon the young one and perhaps Thus the experts are busy as both ends of life at the dismal task of informing peo-ple that their chance of living long is slim. The amazing thing is that with the death charts and warnings and gloomy pronounce-

ments by the experts the whole human race has not been scared into the grave. Perhaps the reason we are rocking along as well as we are is that the most numerous of us, the babies, never hear of the ex-perts until too old to be concerned in their predictions for infants, and the grown-ups are wise enough to take the experts no

more seriously than they take each other. CUPERFLUOUS HOSPITALITY.

THE WHITE MOTHER.

BY JAMES M. WARNACK. Once lived a radiant-white moth-

who had six beautiful children, three daughters and three sons. Fair of complexion were all, but the long-flowing hair of each was of a different hue, the hair of the sons that of the daughters orange, violet and green. Born of the light that is and green. Born of the light that is love, radiantly happy were they, lightly dancing and joyously singing through space. Glad in their perfect companionship they remained, dancing and singing until, growing weary, they refurned to rest in the bosom of her who bore them. But one time there came a cessation of their joy—for out of the nowhere approached them a strange, dark phantom. For an instant fear gripped their hearts, but stant fear gripped their hearts, but when the shadow spoke they lis-tened intently. Eagerly did they listen, for the shadow told them

listen, for the shadow told them strange stories.

"Listen, my little ones," he said—and his volpe was sweet as the music that dies ifto silence—"why do ye weary yourselves with your feverish action? Come, come unto me and be cooled and quieted—for, lo, I am he who long have sought you, the lover ye madly crave, yet never have known. Behold, I am peace, I am sleep, I am death. I am that which is not—the breath of oblivion am I."

And the plantom tempted the children of the mother radiant white, and they followed him long and afar. Now, though he smilled upon them, he never embraced them, but led them on and on and tantalized them with his words.

upon them, he never embraced them, but led them on and on and tantalized them with his words.

At last they grew weary of following, for he never fulfilled his vows. And the maiden with violet hair, who was wisest of all and who spoke for her brothers and sisters, addressed their tormentor.

"How long will ye thus deceive us?" she said. "Ye promised to show us your palace and to lead us to beds of peace—but ye have forgotten your promise or else have no power to fulfill it. And now we are weary and footsore and fain would return to our mother. Deceive us no more and let us depart for our home."

But the shadowy one smilled darkly and answered not.

But the shadowy one smiled darkly and answered not.

Then the children turned in their

steps—but the way they had lost, so
they fell into each other's arms and,
sinking down, they wept. And they
did not dream that far away their,
mother had been seeking them.

Thelieve I was the most nervous person in the world and on an average of once a week I would have an awful spell of hysteria. My feelings would be utterly beyond my controid and I suffered almost beyond words to describe. I shudder when I think of those terrible spells. Nobody knows what I suffered during the last nine years.

Thad rheumatism, too, and my kness hurt me so bad I could hardly bend them. I also had awful splitting headaches and suffered a good deal from indigestion and loss of appetite. My troubles just wasted me away until I daily weighed one hundred and five pounds when I began taking Tanlac.

Since this marvelous medicine has restored my health I weigh one hundred and thirty pounds. While I rejoice at this gain in weight, it is only a small part of the benefits I have received. My nerves now are calm and steady and I never have aspell of hysteria. The headaches have left me too, along with the rheumatism. My appetite, is just splendid and my dispection is perfect. "It seems almost unbelieveable medicine could do all this but the rheumatism. My appetite, is just splendid and my dispection is perfect. The official board of the First Methodist Church recommended this action at a special session held after the morning services yesterday.

This will give Mrs. Irvine authority to fulfill most of the functions of the ministry, including the solemnizing of marriages.

The action was taken under the authority of the Methodist General Conference, which met at Desa Moines, Iowa, last May. At that time it was decided to authorize the licensing of women as local preachers, or the Methodist church is more than the solemnization.

APPOINTS COMMITTEE.

held in this city on February 5.

APPOINTS COMMITTEE:

Profiting by the experiences gained in handling the 1920 team, which presented problems never before encountered in Olympic games of the past, President Gustavus T. Kirby has appointed a special committee consisting of Col. A. G. Mills, Hon. J. T. Mahoney and President Robert S. Weaver of the Amateur Athletic Union; Col. Willism Libbey, president of the National Rifle Association; Dr. G. M. Hammond, president f the Fencers League; Julius Barnes, National Association Amateur Carsmen; Gen. Palmer E. Pierce, president National Collegiate Athletic Association; Hon. Bartow S. Weeks; Inerational Olympic Committee; G. T. Kirby, F. W. Rublen and W. H. Booth, president, secretary and treasurer, respectively, of the American Olympic Committee, to prepare and present a comprehensive scheme for the reorganization of the American Olympic Committee.

While this committee has not as yet filed a formal report it is expected that its recommendations will include some radical suggestions and proposal were laid before the committee by President Kirby in a recent communication which may result in their being incorporated in the plan of reorganization. These suggestions include:

DEFINITE PLANS.

the plan of reorganization. These suggestions include:

DEFINITE PLANS.

A permanent American Olympic Committee consisting of three delegates from each and every sport association affiliated with the A.O.A., a permanent board of governors to serve until successors are elected to fill their places; immediate organization of a definite system for participation in the 1924 meet with committee to attend to preliminary details as they may arise; a quartermaster's department with full authority and control over transportation, housing and equipment; a finance committee to take the form of an American Olympic Club to begin a finance campaign at least two years previous to the next international meet, this club to have the same number of delegates and voice on American Olympic Committee as other affiliated bodies, that all funds derived from the Olympic tryouts and exhibitions be pooled in a general fund instead of applying to such receipts.

PERMANENT OFFICE. is considered probable that ild the proposed scheme for re-nization be adopted it will result should the proposed scheme for re-organization be adopted it will result in the establishment of a permanent office and clerical staff to handle the various matters in connection with the Olympic games as they develop. This would obviate the necessity of undertaking what is really a colossal task within a few months previous to the actual staging of the meet.

EXPERT GOLFER ANSWERS THEM.

(Continued from First Page.) nost impossible, but they came and far between. PERFECT SOME TIME.

PERFECT SOME TIME.

Some day this will all be worked out to the satisfaction of everyone and perhaps when the game is perfect and there is nothing left to kick about, it will not be half so fascinating a pastime.

"What about the out of bounds rule?" ask a dozen or more letter

writers.

The new rule is rather severe and has caused no end of trouble. Vardon and Ray, I think, did the most kicking about this change, but we Americans can't be blamed, for it is of Scotch origin and made to affect the play at St. Andrews.

The old rule permitted one to lose distance only, but now it is the same as a lost ball. A penalty stroke is attached to the distance. At the amateur championship this ruling caused a great deal of dissatisfaction especially at the tenth hole, where many shots went out of bounds. Tolley falled to qualify on account of it and Bobby Jones lost this hole almost every time in match play. The club could have declared that this was an exception to the rule and not enforced it there, if they had cared to do it.

LONGEST DRIVES

to do it.
LONGEST DRIVES. "What is the longest drive ever made?" asks another golfer. I have heard of drives of more than 400 yards, but they are of a freak nature. I have seen drives up to 350 yards several times my-self.

"Is Mitchell a longer driver than

"is Mitchell a longer driver than Ray?" asks someone. As a steady thing I believe Abe would out-drive Ted. He is a consistently long hitter and is always far down the course. Ted is a slugger. Occasionally he will hit one past any golfer in this or any other country, but he is not always consistent.

"Is Duncan a greater golfer than Vardon?" I don't believe a greater golfer ever lived than Vardon. Perhaps he is slipping a little over the seventy-two-hole route, but he can still play his shots in the same old style that has made him famous the world over.

"Is Miss Leitch a greater golfer than Miss Sitrling?"

I have never seen Miss Leitch play, but from what I have heard I have preat respect for her game. Miss Stirling is also a wonderful golfer for a woman. The two can hardly be compared until they meet.

"Are golf courses in England and Sootland better than those in America?" is also a frequent query. I am sure there are no better courses anywhere than we have in this country, and so many of them, too. I did not have the pleasure of seeing all of the courses in Great Britain, but looked at about twenty or thirty. Some of the best I did not see, but had the, pleasure of playing over the most famous ones. Our own compare very faverably with their best.

NEW YORK, Jan. 10.—An inter-ational intercollegiate sporting con-NEW YORK, Jan. 10.—An international intercollegiate sporting contest in this country next spring appears certain as the result of the Cornell University cross-country team trip to England. Word to this effect was brought back by Manager McGovern and Trainer Jack Moakley, who arrived today with the seven Cornell runners who competed against the Oxford-Cambridge University team at Rochampton, Ens., December 30.

Mr. McGovern stated undergraduates and alumni of Cambridge University favored a return athletic visit to Cornell next spring.

Both he and Coach Moakley were assured that if faculty permission could be obtained an eight-oared crew or a track and field team, or both, would be sent to Ithaca for participation in the annual spring day sports carnival in May.

That English varsity sportsmen and statesmen are in favor of more international sporting/contests between England and the United States was made evident to the Cornellians.

Coach Moakley said that although the Cofnell runners were defeated by a point score of 26 to 29, the race showed that the American collegian can hold his own against the best of the English varsity cross-country runners.

Webb, the sole woman professional in this country, and Arthur Clarkson.

Last Sunday morning Miss Cameron and Peebles were defeated by Mrs. Dunn-Webb and Clarkson by four points and two to go on the Passadena Golf Club links. They played for two points a hole, low ball and best aggregate.

George O'Neill of the Passadena Golf Club has a trophy that many will envy him. It is a gootball presented to him by the members of the winning California football eleven which skunked Ohio State, 28 to 0, on New Year's Day.

During the Bears' stay in Pasadena Coach Andy Smith had much difficulty in holding secret practice that was really secret. Andy sneaked the Blue and Gold boys over to Occidental, but the keen-scented hounds aleuthed them there and it was all off.

O'Neill proved a friend in need. The Bear coach was invited to bring his men out to the Altadena links, where they could practice far from the unclad gaze of man. On the Thursday and Friday preceding the big game the Bears worked out on the golf course.

To show their appreciation of O'Neill's kindness the Bear players presented him with one of their practice footballs on which is inscribed the name of each and every individual member of the Blue and Gold cleven. There isn't another trophy like it in the country.

When Alec Duncan, brother of George Duncan, the world cham-pion, played in the Flintridge tour-ney last Saturday he did so after having just stepped off the train. He didn't even have time to change his clothes. Alec's 162, therefore, was very good under the circum-stances.

Pat Higgins was busy all day yesterday accepting congratulations of his friends over the winning of a trophy for the low net score at Flintridge last Saturday. Pat's 84 (net 70) was versts better than some of the scores turned in by the "pros."

In the Hollywood Country Club handicap tournament last Saturday, Phil P. Carr was the winner in both the gross and net scores, making an 80 gross with 10 handicap—net 70. Mr. Carr played the first nine holes of the Hollywood course last week in 36, which is the best amateur round record thus far for that distance. Prior to coming to California, he was prominently connected with the Northwest Golf Association and member of the greens committee of

reshman football coach at U.S.C.. last fall, writes that he "cleaned" up on the New Year's football game between California and Ohio State. Herd said early in the season that California had the best material that he had ever seen on any college in the country.

When he went East in December, he told Coach Stagg of the University of Chicago the same thing, but Stagg thought he was overenthusiastic when the U.S.C. man predicted an easy victory for California over Ohio State. Herd told Arnold Horween and Raiph Horween of Harvard fame how much better the Bears were than Oregon and the Horweens bet on California as a result, having tasted a bit of the Oregon punch.

likely that this spontaneity is carefully made to order but it looks real, and always catches on.

Chief of the kidding acts is that of Victor Moore and Emma Littlefield in "Change Your Act or Back to the Woods." Mr. Moore and his partner portray on a bare stage, with property men constantly interrupting, two vaudeville hams rehearsing their act. Incidentally everybody else on the bill except the grand opera singers lounge across the stage and contribute something to the fun. Moore's "Horrible Fire" recitation with its "effects" by the prop man is the funniest bit in the act.

You don't have to like female impersonators to appreciate Herbert Clifton, because Clifton's act is a hilarious burlesque of that of the patchoulir and glad rags artists. He stooped the show yesterday.

A brace of two-man acts, both of which hit the bull's optic-are Barnes and Freeman, and Pistel and Johnson. The latter are black-face boys with an act reminiscent of McIntyre and Heath, while in the former act nature gave the Hebrew comedian a long start with the sort of geography she furnished him

MISSION PLAY

By Grace Kingsley.

The flowers that bloom in the spring, tra-la, have nothing for being welcome on the jolly bill, made up mostly of joyous stepping, happy kidding and pleasing warbling, at the Orpheum. The prevailing style in vaudeville and revues is followed, too, most of the acts are characterized, some more, some less, by apparently-impromptu touches. It's likely that this spontaneity is carefully made to order but it looks real, and always catches on.

By the time a French farce reaches either stage or screen in this country it's apt to be pretty pale stuff—an oyster cocktail without tobasco, a denogged egg-nogg—because we don't like quite so much spice on this side of the ocean, or at least we don't like to admit we like it.

Mary's Latest Film.

Mary Pickford's latest United Artist production, "The Love Light," will be seen at the California Theater beginning the 23rd inst. It is said to have an entirely different story from any in which the star has heretofore appeared.

The picture was written and directed by Frances Marion. It has unusual interest owing to the fact that the idea was worked out while Miss Pickford was on her honeymoon. She met Miss Marion in Italy, also on her honeymoon, and the two sketched the story sitting on a high rock overlooking the Adriatic.

It was in Italy that they secured many of the properties and several of the players who support Miss Pickford. The players and properties were brought all the way from Southern Europe to California where the Italian settings were minutely reproduced from photographs.

Miss Pickford has appeared in comedy-dramas, but never in an emotional drama of the type of "The Love Light," it is declared.

TO INVESTIGATE THORNE DEATH.

Coroner Says Accident, but Police Not Satisfied.

Officers | Scent Mystery in Fatality to Millionaire.

Release Driver Whose Truck Killed Mrs. Thilenius.

Although Coroner Williams yester ay signed a certificate of accidental day signed a certificate of accidental death in the case of Raymond C. Thorne, 33 years of age, a Chicago millionaire whose body was found jinned beneath the wreckage of his automobile on Wilshire Boulevard, two miles west of La Brea Boulevard, between this city and Beverly Hills at 6 o'clock yesterday morning, police detectives and Sheriff's deputies stated late yesterday that they are still investigating the mysterious accident.

are still investigating the mysterious accident.

A passing automobilist saw the wreck and telephoned to the police. When officers arrived they discovered that Thorne had been dead for some time and estimated that the accident occurred two hours before they were notified.

A careful examination of the sufomobile and the body, as well as the ground on both sides of the wreck was made, but the police detectives found no indication of a collision. No witnesses to the accident could be located, but the police say Mr. Thorne must have been driving at a high rate of speed and lost control of his machine. The pavement was wet and the machine may have skidded and overturned.

skidded and overturned.

NO INQUEST.

Several hours afterward the body was identified by William Camp of Beverly Hills (stepfather of the dead man. He stated that Thorne was connected with the mail order firm of Montgomery Ward & Co. of Chicago, and that Mrs. Thorne is in Chicago visiting friends. He stated that Mr. Thorne and his wife came to Beverly Hills for the winter.

Following the identification the body was taken to the undertaking establishment of E. C. Koop on West Washington street. Mr. Camp, who notified the widow by felegraph stated that the body will be shipped to Chicago for burial.

Coroner Williams said the death without a doubt was accidental and that no inquest will be held.

Mr. Thorne was the son of W. C. Thorne, former acting president of Montgomery, Ward & Co. He had never himself been connected with the great mail order house. He was the sole heir to his father's fortune of \$2,500.000. Last year he built a \$100,000 home in Beverly Hills. His widow, whom he married in 1909, was Miss R. Mayme Wood of Boston, with whom he eloped while he was a student at Darimouth.

RELEASE TRUCK DRIVER.

While the police were still investigating the Throne fatality. Louie Glanouke, 22 years of age, who had been held in the City Jail on a charge of manslaughter in connection with the death early Sunday of Mrs. Mabel Thilenius, of 1625 Las Palmas avenue, Hollywood, was released on orders from the District Attorney's office.

Gianouke was locked up when a truck driven by him crashed into an automobile driven by Will Thilenius, an employee of The Times, and killed Mrs. Thilenius. The accident took place in Cahuenga Pass. Mrs. Thilenius being thrown from the automobile and crushed on the pavement. Mr. Thilenius was only slightly injured, while Peter Gianouks, an uncle of the truck driver, who was riding with his nephew. Was also slightly hurt.

The investigating officers stated that the accident was unavoidable. Glanouks, they say, lost control of his truck while coming down the grade and in an effort to stop the machine turned into the bank. Mr. Thilenius, who was driving up the grade, attempted to swerve his automobile out of the path of the runaway truck, but was unable to turn in time, the fivestigators say.

Mrs. Thilenius, who for years was secretary to the late Gen. Harrison Gray Otis, was 41 years of age. The body was taken to the Strothers & Dayton undertaking establishment. The date for an inquest will be set today.

PLANT WILL BE READY BY MAY. [Furnished by A. H. Crary & Co., 119 West Fourth street, Los Angeles.]
BOSTON, Jan. 10.—Closing quofations:

Buttonwillow Power Project Employs Large Force.

Capable of Supplying All of Bakersfield's Needs.

Gas from Elk Hills Gushers Will Supply Fuel.

BAKERSFIELD, Jan. 10 .- With the foundation laid for the big \$1,000,000 steam plant being built by the San Jeaquin Light and Power Corporation at Buttonwillow, fine progress is being made on the other units of the construction. About 160 men are being employed on the job and it is said that the plant will be completed by May I, and perhaps the "load" will be turned into the main line by April" 15.

The new unit will develop about 18,000 horsepower, more than enough delectricity to provide light and power for the city of Bakersfield. The Bakersfield steam plant, just completed now has a capacity of about 35,000 horse power, and the Kerckhoff plant a misfraum of about 54,000 horse power, and the Kerckhoff plant a misfraum of about 54,000 horse power, and the company in the past year.

A. G. Wishon, head of the power corporation, who paid a visit to the Buttonwillow project yesterday, stated that undoubtedly there will be four units at Buttonwillow in time instead of one, and that ptobably another unit will be constructed next year. The plant will use gas from the Elk Hills gas wells for fuel.

INTEREST SMALLER.

According to Mr. Wishon the operating cost of a hydroelectric plant is less than where steam has to be developed to run the generators, but that the original cost of a hydroelectric plant is much more than a steam plant and that consequently the interest required on the original hydroelectric investment is much greater.

At the Buttonwillow plant site in the content of the past wells for the plant is much as the property of the past well as much as the past well as the foundation laid for the big \$1,000,000 steam plant being built by

hydroelectric investment is much streater.

At the Buttonwillow plant site thirteen permanent homes are being constructed. They are pretty littic houses, modern in all respects, and will house the employees of the plant Grass will be planted on the property when the plant is completed and the settlement will be a very attractive spot on the McKittrick highway. The plant is next to the townsite lust started near the wells being drilled in the Buttonwillow territory.

Surprise was expressed by a large group of business men of this nity, members of the Rotary club, who were taken on a trip of inspection through the Bakersfield steam plant of the San Joaquin Light and Power Corporation, just enlarged, that such a big piece of construction work could have been accomplished so quietly, few of the visitors realizing that such a big project had been go.

CAPACITY DOUBLED.

CAPACITY DOUBLED. CAPACITY DOUBLED.

The Rotagians' comments of admiration and surprise followed Mr.
Wishon's explanation that more than \$1,000,000 had been expended on the plant in the past year. The plant has been doubled in capacity, developing 30,000 k. w. instead of 15.000 k. w. or twice as much horsepower. Thirteen million cubic feet of gas are used on an average every day by the plant in heating the giant hollers, which develop the steam for the turbines.

any time.

Mr. Wishon also surprised the Rotarians by telling them that 259 men, are now at work on the improvements being made at the cogporation's powerhouse in the Kern River Canyon, and that at least 300 will be at work there within a very short time.

An agreement was reached vester-day between U. S. Akty O'Conner and Paul W. Schenck, representing F. Ray Groves. Edward Groves. Ralph Groyss, Julius Soto and about twen-ty othe liquor case defendants that the demugrers already submitted by counsel for the defendants attack-ing the fegality of the first indict-ment, which charges a compiracy to violate the national prohibition amendemta and the Volstead lay, should remain before the court as

should remain before the court as submitted for another week.

If the meantime, Mr. Schenck will put the second indictment, charging extértion, under the legal glass to discover any blow-holes if possible and on next Mosear the defendants will be asked to either be arraigned or a second desourcer will be submitted in their behalf.

Attackon Guard Results in a Life Prison Sentence.

Because of an attack upon Deputy Sheriff Cochran, while he was taking E. Ha Hudson and others to San Quentifi, Hudson's term in prison was fixed at life imprisonment, according to word received yesterday by Deputy Cochran from E. H. Whyte, State parole officer.

Hudson and Bert and Ed Brown were sentenced to San Quentin for robbery of the manager of the Union Square branch of the Home Savings Bank. While Hudson was being taken to the State prison he struck Deputy/Cochran with a water glass and attempted to escape.

Taking the attack into consideration, the State Board of Prison Directors fixed Hudson's sentence at life and ordered him sent to Folsom prison.

A New Branch in the Orient—SINGAPORE

T SINGAPORE, the commercial trade center A of Southern Asia and eighth largest seaport city in the world, this Corporation has just opened its ninth branch in the Far East.

The port, capital of the Crown Colony of the Straits Settlements, is free to ships of every nation, without charges on exports or imports. The imports in 1917 were valued in excess of \$300,000,000 and the exports about \$290,-000,000. The total tonnage entered and cleared annually is more than 17,000,000 tons. Copper, tin, and tropical goods of all kinds make up the principal exports, while the imports are of a general nature.

The breadth and character of the banking facilities which the establishment of this newest foreign branch opens up for American and Far Eastern traders are significant of the changed order of world conditions.

It is, of course, a complete banking service that we render.

But, over and above mere completeness, the service is direct-which means that the accurate and prompt negotiation of all transactions is made certain by never allowing the business in hand to get beyond the control of this Corporation.

We invite interviews or correspondence relative to trade with the Far East.

Ouster Suit Questions Bear on Deputy's Suicide.

Sheriff's Use of Trust Coin for Expenses is Shown.

Proper Explanations Coming, Say His Attorneys.

The trial of Sheriff Cline before udge Monroe in ouster proceedings

The trial of Sheriff Cline before Judge Monroe in ouster proceedings yesterday brought out evidence which the prosecution says supports the contention in some of its twenty-one counts that a new Sheriff is needed. J. M. Bets, book-keeper and clerk in the County Jail, was called by County Counsel Hill and tody of the looting of the safe in the Jail by Deputy Marcus in 1918 and the man's subsequent suicide.

Mr. Bets stated that when Mose Marcus did not return to duty, the safe was opened and found to contain only \$51.50. Two days later. A. F. Jewell, a deputy, came from the Sheriff's office and took out of the safe \$41.7.55, representing the money that had been paid in since the looting of the safe was discovered. I The sasortion was made that Sheriff Cline had board money in the safe at the time Marcus absconded. Mr. Bets produced receipts from Deputy Jewell who said he had turned the money over to the Sheriff.

Mr. Bets further testified that in December, 1918, the Sheriff gave him instructions as to charging for mealisfor the attaches of the jail and as a consequence they jumped from \$142.75 to \$256.50, affere being no additional attaches serving.

Dep. Jewell testified he collected the money paid by the boarders for better meals and accommodations, getting \$5 from each prisoner a week, and that he turned the amount collected over to the Sheriff. He said no record of this was kept, as far as he knew.

up of moneys deposited in civil littigation.

H. R. Jones, cashier at the Sheriff's office, was a witness, the court holding that as he held an important position under Sheriff Cline he was an "unwiffing and reductant" witness for the prosecution. This trust fund, Mr. Jones said, was deposited in the Hibernian Savings Bank. The prosecution contended that the law requires it to be deposited in the county treasury. Letters were shown written by Mr. Jones to County Auditor Payne in which Mr. Payne was asked that the Sheriff be reimbursed to cover the withdrawals from the trust fund.
